INTRODUCTION

STE has been providing best solutions to our valuable customers in electronic, automotive, measurement area all over the world in the center of Hong Kong. Aiming the world best co-work partner in the various markets, STE has been growing rapidly. As a trading specialist, STE has provided optimized solutions with various electronic components, sensors, modules and end-products to our customers world-widely.

With our accumulated experiences in marketing and manufacturing various products, we have met various needs of our customers. Our strongest point is that we realized strong price competence through mass-purchase and mass-merchandise.

Furthermore, we are well aware of the latest market trends and new technologies, STE takes a role as a traditional trading company, while providing other services that provide added value, such as integrated procurement service, quality and environmental management, overseas networking in order that we can provide better service and expertise to our customers.

However, we will not stay at our current position, and we will prepare for better future as the global leader in IT industries based on our basic strategies of Customer-intimate, HR-intimate and new technology preoccupation with our experiences and partners..

We sincerely appreciate your kind interest in our products and technology; in addition, we look forward to serving you in the future.

Major Founder: Chang-Min, Lee

Business field: Electronic Components

(Thermistor, Humidity sensor, Thermal Cutoffs,

PCB Gaskets, etc)

Location : HEADQUATER (Hong Kong)

ROOM 2006, 20/FL., RIGHTFUL CENTRE, NO. 12

TAK HING STREET, JORDAN, KOWLOON, HONG KONG

Tel: (+852) 2781-2231

Fax: (+852) 2782-1110

ORGANIZATION OF STE

President

Inspection Department

Management consultant

Planning Dept.

- Planning & Management
- New Project Planning
- Management Capital
- Market Planning Research & Analysis Marketing Panning

Marketing Dept.

- Hong Kong Head Office
- Sales 1 Team (Domestic)
- Sales 2 Team (Overseas)

R&D Dept.

- · R&D 1 Part
- Sensor & Element
- · R&D 2 Part
 - Module & Assembly
- R&D 3 Part
 - Automotive Part
- R&D Planning Part
 - New Project Planning

Manufacturing Dept.

- Factory 1
- NTC Thermistor
- Temperature Sensor
- Factory 2
- SMD type Element
- Thermistor / Varistor
- PCB Gaskets / Shield Clip
- Factory 3
 - Thermal Fuse & Cutoffs
- Factory 4
 - Humidity Sensor Element
 - Humidity Sensor Module
 - Transmitter (Hum & Tem)

NTC THERMISTOR & TEMPERATURE SENSOR

THERMAL CUTOFFS

For Home appliance & Automotive

HUMIDITY SENSOR & MODULE

PCB Gasket & Shield Clip

For Mobile Devices & LCD Products

PRODUCTION CAPACITY

EQUIPMENT

APPLICATION

Home Appliance
Refrigerator, Airconditioner,
Dehumidifier, Humidifier
Washing Mashing, Etc.

Small Appliance

Coffee Maker, Hair Dryer, Coffee Maker, Hair Dryer Weather Station, Thermo Clock Hygro-Thermo meter, Etc.

Application

Mobile Device

Cell Phone, Smart Phone, Notebook, Netbook, Navigation, Etc.

Automotive

Incar Sensor, Water Temp. Sensor Temp Gauge sensor, A.Q.S, **Evaporator Temp. Sensor, Etc.**

Industry

Gas Boiler, Duct Sensor etc.
